2.3.1 Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences and teachers use ICT- enabled tools including online resources for effective teaching and learning process

Our Institution Periyar Arts College, Cuddalore, is committed to fostering a productive learning environment through the integration of experiential, participative, and problem-solving methodologies. By adopting a student-centered approach to education, the institution emphasizes the diverse needs, abilities, interests, and learning styles of its students, thereby enhancing their self-confidence and critical thinking skills in the digital era. Recognizing the limitations of traditional, teacher-centered methods, our college actively implements outcome-based education (OBE) principles via the Naan Mudhalvan Platform. As a non-autonomous institution affiliated with Annamalai University, Annamalai Nagar, Chidambaram, Tamil Nadu, India, we ensure that our curriculum aligns with the standards set by the university while prioritizing student engagement.

Experiential learning methods are achieved by

- ❖ Projects
- ❖ Internship
- ❖ Fieldwork
- ❖ Hands on training
- ❖ Mobile learning
- ❖ NPTEL-SWAYAM courses
- ❖ Add on courses
- ❖ Value added courses
- ❖ Group discussion
- ❖ Guest lecture

The project work is designated for third-year undergraduate and second-year postgraduate students as stipulated in the curriculum, with exceptions for certain courses. Oversight will be provided by project guides to ensure the quality and relevance of the work. Notable institutions in proximity to our college, such as SIPCOT, NLC-Neyveli, and the Department of Marine Biology in Portnova, offer students valuable opportunities for internships and projects, facilitating a blend of theoretical and practical learning. Furthermore, students are encouraged to enroll in MOOCs available through NPTEL, while participation in the Naan Mudhalvan skill development program is conducted via mobile platforms. Additionally, various clubs, NSS units, NCC units, and MSW programs are active in organizing fieldwork opportunities for student volunteers. Special guest lectures are organized on various occasions to enhance students' knowledge through the insights of subject matter experts. These engagements provide a unique opportunity for students to engage with professionals who possess substantial experience and expertise in their fields.

The following ways are adopted for Participative learning methods.

- Seminars
- Quizzes
- Department programs
- Tableau
- Inter and Intra collegiate competitions

Organizing seminars, quizzes, and various departmental association activities significantly enhances student participation and fosters the development of leadership skills. Students are also encouraged to engage in competitions at both inter- and intra-collegiate levels, which further cultivates a spirit of teamwork. Initiatives such as village adoption, tree plantation, and Swachh Bharat contribute to community welfare while promoting collaborative efforts among participants.

- Problem solving skills given based on the subjects taught
- Assignments based on problems
- Practicing numerical/arithmetic problems

The development of problem-solving skills among students is achieved through assignments, practicing arithmetic problems, and including problem questions in examinations.

Teaching is enhanced through the use of ICT tools to help students better understand the subjects. Students are encouraged to participate in the hackathon process on the Naan Mudhalvan Platform. A hackathon is an event, usually lasting several days, where individuals, often programmers and software developers, collaborate intensively on software projects. During the Covid-19 pandemic, teachers used platforms such as Google Meet, Zoom, and Webex for online teaching. They also conducted quizzes, assignments, and exams online. E-content was developed by the staff members to prepare subject materials.

Description about the Activity: Thoughtful planning and preparation can help ensure the safety of the people.

This programme is necessary to ensure an immediate and proper response in case of emergency calamity. Students, faculty and administrators can prepare themselves for emergencies in a number of ways, from conducting regular, emergency-specific drills to making sure the protection. When emergencies do happen, students need to know how to respond appropriately and to recover as quickly and effectively as possible.

Mr. K. Kumar, the District officer of Fire Safety and Rescue of Cuddalore headed the

PARTICIPATIVE LEARNING

The following ways are adopted for Participative learning methods.

- Seminars
- Quizzes
- Department programs
- Tableau
- Inter and Intra collegiate competitions

Organizing seminars, quizzes, and various departmental association activities significantly enhances student participation and fosters the development of leadership skills. Students are also encouraged to engage in competitions at both inter- and intra-collegiate levels, which further cultivates a spirit of teamwork. Initiatives such as village adoption, tree plantation, and Swachh Bharat contribute to community welfare while promoting collaborative efforts among participants.

Description about the Activity:

A Three day Science Academies

Lecture Workshop on Advanced Materials for Societal Applications

13th -15th, March 2024

Sponsored by

Indian Academy of Sciences (IAS) Bangalore
Indian National Science Academy (INSA) New Delhi
National Academy of Sciences India (NASI) Pragayaraj

Organised by

Department of Physics
Periyar Arts College
Cuddalore - 607 001

A three science academies, lecture workshop on advanced materials for societal applications organised by the department of Physics Periyar arts College from 13-03-24 to 15-03-24.

The inaugural function of the lecture workshop was held on 13-03-2024.

The function was presided by professor Ramakrishnan Shanti , Principal (FAC). Inaugural address was given by Dr S Gunasekaran, Dean (R &). Also a special address was given by Dr Jayasankar, FNASc, Professor, Sri Venkateswara University, Thirupathi.

The keynote address was given by the convener of the workshop Dr P Ramamurthy, FNASc, former professor, National centre for ultra fast process, University of Madras, Chennai.

Before that the welcome address was given by the head of the department of Physics Dr G Ravichandran.

The lecture workshop is funded by Indian academy of sciences- Bangalore, Indian National science academy- New Delhi, National academy of sciences India-Pragayaraj aims at promoting the progress and uploading the cause of materials in diverse technological fields.

The aims of the workshop are to present the fundamental and cutting edge research topics in the field of advanced materials under to explore their technological applications. The main focus of this lecture series to stimulate interest among undergraduate, post graduate and research scholars for the exploration of advancements in luminous and materials, advanced materials, smart materials.

PROBLEM-SOLVING

Problem solving methods

- Problem solving skills given based on the subjects taught
- Assignments based on problems
- Practicing numerical/arithmetic problems

The development of problem-solving skills among students is achieved through assignments, practicing arithmetic problems, and including problem questions in examinations.

Teaching is enhanced through the use of ICT tools to help students better understand the subjects. Students are encouraged to participate in the hackathon process on the Naan Mudhalvan Platform. A hackathon is an event, usually lasting several days, where individuals, often programmers and software developers, collaborate intensively on software projects. During the Covid-19 pandemic, teachers used platforms such as Google Meet, Zoom, and Webex for online teaching. They also conducted quizzes, assignments, and exams online. E-content was developed by the staff members to prepare subject materials.

PROBLEM SOLVING SKILLS

5

23-9-2022 EXERCISE: 2	REMOVE CHARACTERS IN STRING EXCEPT ALPHABETS
--------------------------	--

AIM:
To read a string and remove characters in string except alphabets.

ALGORITHM:

Step 1: Read the string in the variable line[50]
Step 2: For i=0 to end of string Repeat steps 3 to 4
Step 3: Retrive each character
Step 4: If character is an alphabet 'a' to 'z'
Store it in line
Else
check next character
Step 5: print the string
Step 6: stop

7-2-2023
EXERCISE:2

Write a C++ program to demonstrate the use of Constructors

AIM:
To write a program to using Constructors and classes in C++ to Initialize and Display values

ALGORITHM:

- Step 1: Start the program
- Step 2: Declare the class name
- Step 3: Declare the variable
- Step 4: Declare the constructor Example (), assign the values a, b
- Step 5: Define the display function
- Step 6: Declare the class object (object)
- Step 7: Call the display function using object
- Step 8: Stop the program

PERIYAR ARTS COLLEGE, CUDDALORE - 607001

ACADEMIC YEAR 2023 - 2024

DEPARTMENT OF PHYSICS

ASSIGNMENTS GIVEN TO STUDENTS

Odd Semester

S.NO	DATE	NAME OF THE STAFF INCHARGE	CLASS	ASSIGNMENT TITLE
1.	18.8.2023	Dr K. Anandalakshmi	III B.Sc Physics E/M	Construction and working principle of -SCR- working of SCR- SCR as a switch.
2.	18.10.2023	Dr K. Anandalakshmi	III B.Sc Physics E/M	Hybrid parameters- Determination of h parameters- h parameter equivalent circuit
3.	24.8.2023	Dr K. Anandalakshmi	III B.Sc Physics T/M	UJT- Equivalent circuit and V-I characteristics of UJT- UJT as relaxation oscillator
4.	11.10.2023	Dr K. Anandalakshmi	III B.Sc Physics T/M	Hartley Oscillator, Phase shift oscillator
5.	27.9.2023	Dr K. Anandalakshmi	II B.Sc Physics	Rayleigh's criteria- resolving power of prism and resolving power of grating
6.	13.10.2023	Dr K. Anandalakshmi	I M.Sc	Astable and monostable multivibrator
7.	6.10.2023	Dr K. Anandalakshmi	II M.Sc	Interfacing seven segment display and stepper motor(8051)

Comparative Anatomy of Vertebrate Brain

Introduction

The brain is the specialised anterior part of the central nervous system. In all vertebrates, the brain is built on the same structural plan, but differs in different vertebrates according to their habitats and behaviours.

It becomes concentrated in the anterior part of the body. It develops as an outgrowth from the ectoderm called neural tube. The anterior thickened end of the neural tube is called cephalon. When the neural tube is fully formed, it becomes divided into three parts by two constrictions called cerebral vesicles. These cerebral vesicles become differentiated into forebrain (proencephalon), mid brain (metencephalon) and hind brain (rhombencephalon).

The adult brain contains a large number of cavities called ventricles, which are in continuation of central canal of spinal cord. The ventricles contain cerebrospinal fluid. The various cavities of brain are shown in Figure below.

GERMPLASM CONSERVATION

* Germplasm conservation is the most successful method to conserve the genetic traits of endangered and commercially valuable species.

* Germplasm is a live information source for all the genes present in the respective plant, which can be conserved for long periods and regenerated whenever it is required in the future.

* Different plants' genetic diversity is also preserved and this in turn creates a pool of different genes that acts as sourcehouse (genebank/library) for new or unidentified species.

* This gene bank also assist the in vitro testing of germplasm for their genetic alterations (transgene) and to screen the elite germplasm among them. Genetic variation leads of earlier generations, which makes germplasm conservation an important aspect to preserve this

I MSc Comp Sci-C# Class (2021-01-21 at 21:57 GMT-8)

DataAdapters

- For speed and efficiency you should set your own InsertCommand, UpdateCommand and DeleteCommand
- Call GetChanges to separates the updates, adds and deletes since the last sync. Then sync each type.

⏸ 🔊 17:40 / 23:57

Software Project Management Class (2020-10-05 at 21:41 GMT-7)

Types of Decisions in an Organization

- **Structured decisions**
 - *Can be automated because a well-defined standard operating procedure exists for these types of decisions, Known as programmable tasks*
- **Semistructured decisions**
 - *Include a structured aspect that benefits from information retrieval, analytical models, and information systems technology*
- **Unstructured decisions**
 - *No standard operating procedure*
 - *Decision maker's intuition plays a important role as ITtechnology offers less support for the decisions*

PERIYAR ARTS COLLEGE, CUDDALORE DEPARTMENT OF PHYSICS

E-CONTENT MATERIAL FOR II MSc PHYSICS

MICROPROCESSOR & MICROCONTROLLER (CODE: MPH 33) UNIT 1 (Part -1)

(Dr.R.Thilak Kumar, Assistant Professor of Physics, Periyar Arts College,Cuddalore-1)

Introduction

Digital computer:

A programmable machine that processes binary data is called digital computer. It is traditionally represented by five components CPU (central processing unit), ALU (arithmetic logic unit) and Control unit, memory, input and output. Traditional block diagram of a computer and microprocessor are presented in Fig.1 and Fig.2 respectively.

Fig.1 Block diagram of a computer Fig.2 Block diagram of a microprocessor

Microprocessor as a CPU (MPU)

With advent of integrated circuit technology, it became possible to build the CPU on a single chip, this came to be known as a microprocessor and the traditional block diagram is shown in fig.2

Basic and important terms used in microprocessor

The microprocessor operates in binary digits 0 and 1, known as bits.

Bit: Bit is an abbreviation for the term binary digit.
A digit of the binary number or code is called bit.

Nibble: The 4-bit (4 digit) binary number is called nibble.

Dr. S.J

- ❖ But, it can react fast with some reagents, i.e., kinetically labile. For example, its exchange reaction with isotopically labeled cyanide ion is extremely rapid.

- ❖ On the other hand, $[\text{Co}(\text{NH}_3)_6]^{3+}$ complex is thermodynamically highly unstable (low β value)

- ❖ However, the above complex can be stored in aqueous solution containing some acid in the laboratory for several days without any noticeable change. This is possible, because its reaction with H_2O in acid medium is very slow due to high energy of activation, (E_a Value) for the reaction.

Dr. S.J

Thus, the above complex is kinetically inert.

- ❖ But the complex, $[\text{Fe}(\text{CN})_6]^{4-}$ ion is thermodynamically stable and also kinetically inert.

(ii) Thermodynamic aspects of complex formation:

- ❖ The Thermodynamic stabilities of complexes are expressed in terms of **stepwise stability constants (K)** and **overall stability constants (β)**. The stability constant of a complex denotes the extent of stability of the complex and denoted by ' β '

Stability constant and instability constant:

- ❖ When ammonia (monodentate, neutral ligand) is added to an aqueous solution of Ni^{2+} ions, there is noticeable colour change, because some of $[\text{Ni}(\text{H}_2\text{O})_6]^{2+}$ ions are converted into $[\text{Ni}(\text{NH}_3)_6]^{2+}$ ions, the system at equilibrium may be described by the equation,

EVOLUTIONARY SIGNIFICANCE OF TROCHOPHORE LARVA

Paper: ZOOACOR03T

Unit :05 - Mollusca

When development is indirect, there is a larval stage which differs from the adulthood through metamorphosis. Advancement from free living to sessile or sedimentary requires many stages. If the food habit scenario limits the larval form and adults are coexisting member of a habitat, more taxa shoes a significant larva. As in case phylogeny points out their origin to be a monophylatic one. Such as larva is **Trochophore** arising theories in bilateral over radial symmetry.

Etymology : **Trochophore** derives from the ancient greek where trokhos meaning "wheel", and phero means 'to bear, to carry', because the larva is bearing a wheel-shaped band of cilia.

Occurrence: 1.A characteristics larval stage of **annelids**, egg hatch to form **Trochophore larva- the first larval stage.**

2. Also found in **Mollusca** and some other phyla also.

A typical Trochophore Larva
